

BUILT TO LAST, IN AMERICA

WOHS-1

Outdoor Hand Sanitizer Station

When soap and water aren't available, hand sanitizer is an effective alternative. WSF's outdoor hand sanitizer station is an exceptionally durable solution to help park and playground visitors clean their hands before, during, and after play.

Secure & Vandal-Resistant

The station is constructed from fully-welded Type 304 stainless steel, schedule 40 stainless steel main column and 7 gauge stainless steel flange. The result is extremely durable and vandal resistant.

Simple Operation

Recessed dispensing paddle is easy and intuitive to operate. The station comes with a 1,200 ml bag of hand sanitizer and accepts standard 1,200 ml refills.

Easy Maintenance

Our hand sanitizer station is powder coated in one of 11 striking colors and has a locking hinged front panel for easy product replacement.
