

BUILT TO LAST, IN AMERICA

# Outdoor Hydration Solutions

Willoughby outdoor drinking fountains, bottle fillers, and combination drinking fountains and bottle fillers are the perfect solution for college campuses, parks, or anywhere else where filtered water could quench a thirst. Willoughby's quick-fill outdoor bottle filler provides convenience and helps to reduce the waste from plastic water bottles.

### Built to Last

Solid, one-piece, fully-welded Type 304 stainless steel is extremely durable and vandal resistant. Optional marine-grade Type 316 stainless steel is available for installations near salt water.

### Simple Operation

Recessed, vandal-resistant push button is easy and intuitive to operate and requires less than 5 lbs. of force. Optional infrared operation on bottle fillers is also available.

### Quick Fill

Solid stainless steel anti-rotation bubbler and quick 1-gallon-per-minute fill rate means water bottles get filled fast. Easily replaceable in-line charcoal filter results in great tasting filtered water.
