

BUILT TO LAST, IN AMERICA

CWBF-1-HF

Outdoor Hands-Free Bottle Filler

This is the perfect no-touch solution for college campuses, parks, or anywhere else where filtered water could quench a thirst. Willoughby's hygienic, quick-fill, foot-operated outdoor bottle filler provides convenience and helps to reduce the waste from plastic water bottles.

Built to Last

The fixture is fully TIG welded and crafted from 1/8" stainless steel tubing and a 7-gauge stainless steel base. The bottle filler is available in both Type 304 and Type 316 for installations near salt water.

Hands-Free Operation

The foot-operated vandal-resistant push button is self-closing and easy and intuitive to operate. Optional battery-powered infrared operation is also available.

Quick Fill

Solid stainless steel anti-rotation filler and quick 1-gallon-per-minute fill rate means water bottles get filled fast. User-replaceable in-line charcoal filter results in great tasting filtered water.

Stainless Steel, Every Time
