

BUILT TO LAST, IN AMERICA

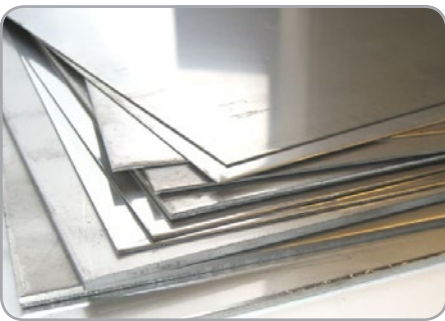

WODS SERIES

Outdoor Showers

All-stainless steel construction

Constructed of welded Type 304 stainless steel or optional marine-grade type 316 stainless steel for areas near saltwater means that it will last.

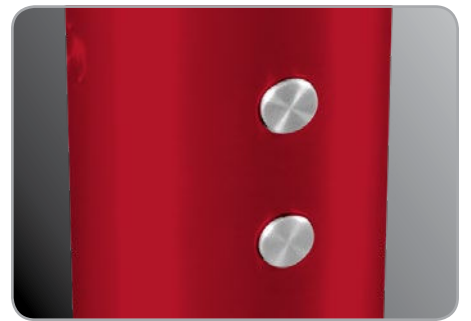

Configurable choices

Each shower is built to your specifications so you get exactly what you need. Order your showers with up to four shower heads and two foot washers.

Helps save water

Each shower is constructed with a recessed solid stainless steel pushbutton which controls a lead-free metering valve that stops the water flow after a preset run time.

Stainless Steel, Every Time
